Turning planning into action

Phase 3 marks a turning point in the organization of your wedding: you move from idea to action.

Once you've defined your vision, choices, and direction, it's time to make it happen. This phase allows you to secure your service providers, structure your logistics, organize your guests and move forward serenely towards the D-Day.

The goal is simple: reduce the mental load, avoid the unexpected and turn your project into reality, step by step.

At this point: We don't plan anymore. We validate and consolidate.

Securing essential providers (top priority)

Start with the most in-demand and limited service providers:

- ♥ Book the hairdresser (date + trials)
- ♥ Choose and book the DJ or musical group
- ♥ Reserve equipment (tents, sound system, lights, decoration)
- ♥ Make an appointment for the ceremony (religious, civil or secular)

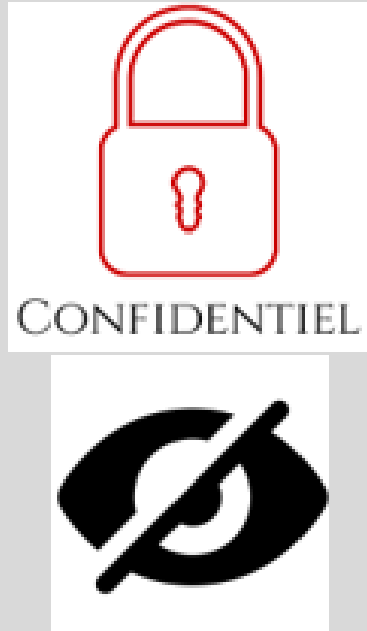

Why now? It is the service providers who book the fastest.

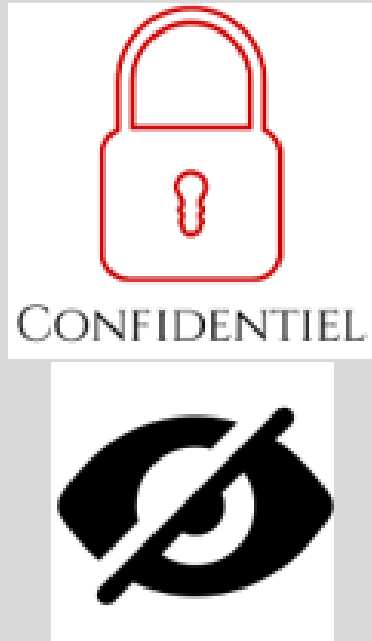

Setting the personal and logistical framework

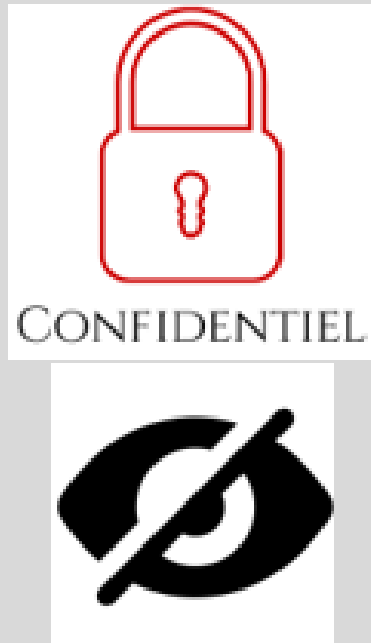

Secure your personal organization before going any further:

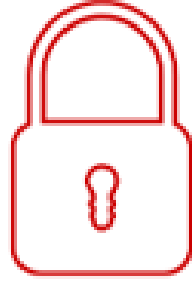

- ♥ Take your leave
- ♥ Book the honeymoon
- ♥ Plan accommodation (guests, service providers, yourself)
- ♥ Create a first timeline of the day

Objective: To have a global vision to avoid scheduling conflicts.
